ONEIDA COUNTY WINS HONORS COLLINS LUMBER COMPANY AT NATIONAL POTATO SHOW BUYS ROBBINS PLANT HERE

More Than Holds Its Own With Best Potato Growing Regions Of United States

Contributed by W. D. Judyay, County Representative

Oneida county has again demonstrated her superiority in the production of potatoes of the very highest excellence, this time at a National Potato Show, where her potatoes were in competition with those from Maine, New York, Idaho, Colorado, Minnesota, Michigan, Iowa and Wisconsin. Potatoes from the best potato growing regions of the United States were in competition at this show and the fact that Oneida county could more than hold her own with these should be a source of great pride to every resident. Not only did Oneida county win more individual prizes than any other county but she won more than did any state. Besides, her potatoes helped make up the Wisconsin state exhibit, which won first place in the State Exhibit Class. From the National Show, Oneida's prize winners went to the Iowa State Potato and Vegetable Show where they are now on exhibit. At the National Show, Oneida county winnings were as follows:

Green Mountains, E. M. DeLong, Woodruff, 1st.

Green Mountains, Albert Radke, Rhinelander, 2nd.

Triumphs, F. S. Campbell, Three Lakes, 1st.

Triumphs, F. F. Boehm, Rhinelander, 2nd.

Triumphs, Chas. Peterson, Rhinelander, 3rd.

Irish Cobblers, F. S. Campbell, Three Lakes, 1st.

Winning first and second in Green Mountains carry with it special honor, for the Green Mountain class was the largest of any class exhibited.

This National Show was the largest and most successful of its kind ever held. Over 500 exhibits of potatoes were entered making competition keen in every class. The best potato men of the country were on the three day program. The essence of all their talks was "fat" land, and good seed. All emphasized the importance of growing the potato crop on a turned under clover sod and with few exceptions the most successful growers advised the use of liberal quantities of commercial fertilizer. They also advised the treatment of all seed potatoes with corrosive sublimate or formaldehyde, spraying with Bordeaux mixture and hill selection of all seed.

With these methods Maine, New York, Idaho and Colorado growers get yields of four and five hundred bushels to the acre. By employing the same methods there is no reason why Oneida county growers cannot get as large a yield. We have demonstrated our quality. Let us next look to a larger production. The value of these recent potato

estimates to Oneida Co. as a whole cannot be estimated. Her reputation as a potato county is no longer limited to the confines of our own state but is becoming nation wide. In a few years Oneida county will be known as well as Aroostook County, Maine, and Greeley, Colorado. A great work has begun and let every man in the county use his influence and efforts to further the cause.

In bringing our county to its present state of potato development the County Agricultural Representative has been the most important factor. Oneida county was the first county in the United States to launch the movement as it now exists and probably no other county can show greater benefits derived therefrom. The county officials who inaugurated the system are to be congratulated upon being able to see so far ahead. And yet all freely admit that the results have been far greater than they even dared hope. It seems wonderful to think so much could be accomplished in four short years.

In contrast to the progressive spirit of the Oneida county board, let us look for a minute to that of some of the older counties, Waupaca for instance. Waupaca was growing potatoes before Oneida was made a county. Her present production is many times that of ours. Yet in point of quality our county has repeatedly demonstrated that Oneida potatoes are far superior to those of Waupaca. The buyers are no longer anxious for Waupaca potatoes but instead prefer those from our county. Yet in the face of all this, at its last meeting the Waupaca county board voted down its opportunity to receive the services of an Agricultural Representative.

While our county board put the Agricultural Representative movement on foot in Oneida county, farmers and business men have cooperated splendidly to make the work a success. Too much cannot be said of the farmers' willingness to put new and improved methods of farming into practice and we are glad to say that without exception they have worked to the good of the farmer. The business man has always been ready with financial aid, influence and honest effort to work for the furtherance of anything agricultural. A better combination cannot be found anywhere and such a one has and will always succeed. And so let us all work hard for our county. It should not be our aim simply to retain our present standing. We want to improve each year. Let us set our ideal high and work diligently toward that end. The rest will take care of itself.

NEW EXPRESS AGENT
 G. A. Bronson took possession at the express office the latter part of last week, having been selected as agent for this city. Mr. Bronson came from Neenah where he has held a similar position. He is the son of Gus, Bronson the popular shoe man, who at regular intervals makes this city. Mr. Bronson will be assisted by his wife in the office. They will move their goods after the holidays and will occupy the Keppler house on Keenan St. south side.

A transaction of vast importance to the business and industrial life of Rhinelander was completed today when the manufacturing interests of the Robbins Lumber company were purchased by the C. C. Collins Lumber company, a Madison concern comprised of several prominent Wisconsin lumbermen. The new

company has enough timber holdings in this part of the state to maintain operations here for a quarter of a century. Rhinelander was selected as the most desirable location for the plant after a number of other sites had been considered.

The railroad of the Robbins Lumber company was not included in the deal. Mr. Robbins, it is said, will hereafter be engaged in railroading and logging; he still has a great amount of standing timber in this vicinity.

HONOR DEPARTED BROTHERS

The Elks' Memorial service Sunday afternoon was well attended by the members and their families. The program was carried out as printed in the New North last week with the exception of a change in music. Messrs. Wilson and Kimber rendered two bass solos in place of Mr. Annen's solo, as that gentleman was unable to take part.

Father Gray gave a fine general eulogy and the Hon. H. F. Steele gave a fitting and touching eulogy in memory of Warren Reed, the late departed brother.

Mr. Steele spoke of his early life in its different capacities but dwelt principally upon him as a resident of our city and his faithfulness to his fraternity, to his family and to business. How he had been a faithful member of the brotherhood since 1905 and had served as Exalted Ruler and after one year had been

chosen secretary, which office he held until his death. He loved his lodge and spent much of his leisure time in the lodge rooms.

He was an ideal father and husband and spent much time in his home.

As a public official, in which capacity he served for twenty-three years, eighteen of which were spent in our city, he possessed all of the traits of character which fitted him for a successful business man. Duty was his first and last thought, but with it, he combined patience, tact and accommodation. He was a faithful friend and conscientious member of society and his life should serve as an example to his friends.

Those who heard Mr. Steel's eulogy were in accord with his remarks paid to a man whose life was beyond reproach and whose untimely death created a loss far reaching to the entire community.

SAYS CURRAN PUT UP HOUSE IN '83

Rhinelander, Wis., Dec. 4, 1915.
Editor New North:

So much is being said about the Curran house, regarding the time it was built and etc., that I cannot resist letting the people know the facts about this building. I and my family came to Rhinelander by the way of Merrill in August 1882. At that time I put up the frame of the house now standing just south of the Pelican river on Oneida Avenue. When the railroad reached here in October I secured lumber and enclosed this house and it was the first occupied in town, except John C. Curran's dwelling. I was at Curran's place many times before the coming of the railroad. The Curran family was then living in a small log house with out buildings for the hired men. He commenced work on the erection of the large log house that fall but it was not ready for occupancy until some time during '83. I am positive concerning this statement as I had the job of building the first bridge at the mouth of the Pelican river in the fall of '83. The old log house was no part of the new. Therefore the house now standing across from the Rhinelander Creamery & Produce company's plant and built by me in '82 was built one year earlier than the Curran house destroyed by fire a few weeks ago.

Yours Respectfully,

Deafness Cannot Be Cured

by local applications; as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the membranes of the middle ear. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out the tube will remain to its normal condition. These will be determined by the ears out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Mac's Definition.
A successful vaudeville player nowadays must have every ingredient of a successful two dollar drama. It must have directness of purpose. It must lead unanswered to the denouement. A three-act drama is one-third piffle, one-third explanation and one-third substance minus the piffle and the explanation.—Willard Mac, in Dramatic Mirror.

There is something you intended
to "do early." Can you remember
what it is?

Small boys who attend the district
schools of Oneida county are ex-
tremely happy. The teachers are
in Rhinelander attending the institu-
tute and consequently the schools
are closed.

"Great guns!" exclaimed the shade
of Jesse James after reading a news-
paper description of those Atkins
bandits. "In comparison my career
on earth was as mild as that of a
Sunday school teacher."

How the daily press does exagger-
ate. After reading those highly col-
ored stories in the newspapers last
Friday and Saturday regarding the
man hunt for the Atkins bandits
how much faith can one put in the
European war news?

In the great dailies appeared re-
cently a number of scorching articles
concerning the doings of some
alleged bandits in this county. Ar-
ticles of that sort cannot help but
injure this entire community. We
are too busy in this office to send
out articles of such a nature. We
find that we can expend our energies
to much better advantage by let-
ting the big cities know all about our
fertile soils, and other advantages
thus bringing new settlers and en-
hancing the value of the county. It
is too bad that the big scare heads
on the Chicago Herald could not
have been about the big potato show.

The rate of taxation for the city
is 2.74 per cent as against 2.74 per
cent a year ago. While the state
tax is a trifle less the city tax much
less the total rate is the same with a
total valuation of \$140,000 more than
a year ago.

The fact is the city's share of the
county tax is nearly eight thousand
dollars more than a year ago. We
hope the county's total budget may
be reduced another year. It is hard-
ly fair to have so high a county
levy that the individual towns and
city are compelled to deprive them-
selves of money to pay for local
necessities.

Congress met in annual session
Monday. President Wilson read his
message. As was expected the prin-
cipal item in this message was the
need for national preparedness. He
outlined the administration's pro-
gram in this matter. Incidentally
President Wilson improved the op-
portunity of rapping hard the hy-
phenated Americans, pointing out the
danger they presented to this nation.

Mr. Gallinger stated that the Re-
publican party would support the
administration program on pre-
paredness, provided it is not made a po-
litical issue. President Wilson in-
timated that it would not be used for
political purposes.

The organization of the county
school committee took place at the
county superintendent's office Wed-
nesday afternoon. All members
were present, Chas. Rummery of
Hazelhurst, William Anderson of
Three Lakes, and George Kelley of
Little Rice. Mr. Rummery was made
chairman. Verna Durkee, the super-
intendent's clerk was chosen as sec-
retary. Steps were taken to have
made a school map of Oneida county
school houses and public roads. The
meeting was adjourned to the first
week in March.

AN IMPORTANT MEETING
Three very important issues were
settled at the city school board meet-
ing Monday evening. One, introduced
by E. O. Brown and seconded by A.
S. Pierce that a committee be appointed
with authority to act in conjunc-
tion with the V. N. A. and other in-
terested committees to take steps, if
the school committee saw fit, to have
health supervision of the schools.
This was left in the hands of Arthur
Byrns, E. O. Brown and Hans Rodd.
Fifty dollars per month during the
school year was voted to take charge
of this work if carried out. We are
in hearty accord with this move
and have been for many years and
are glad to see this step taken even
at this late date. We hope to see the
country schools under this same
health protection at an early date.

Another exciting topic of the even-
ing was whether the high school
building should be used for dancing
by the high school pupils properly
supervised by high school teachers.
This subject created much discussion.
Statistics were produced to show 137

parents favored dancing and thirty
six were opposed. We are equally
favorable to this move and rejoice in
its passage. Children will dance and
if so, they should be under the best
possible conditions. We hope and
believe that a high grade of social
center work will soon be started under
careful supervision. More, we
stand willing to assist and approve of
the use of our public buildings for
all clean information at public gather-
ings whether social or political.

We have little patience with the
backward step of the council last fall
in refusing the use of the city
hall for public gatherings. However
there is time to re-consider that.

Another most important step was
a unanimous vote to furnish free
text books to children of the high
school the same as has been done in
the grades for years. This will begin
with the school year 1916-17, as there
are no funds in the treasury for this
at present. We also stand heartily in
accord with this measure after watch-
ing it tried out in the past. Christ-
mas vacation was definitely arranged
to begin December 18 and close Jan-
uary 2nd.

The report of state grade inspector
Miss Amy Bronsky on the condition
of the grades was read during the
meeting. On the whole Miss Bronsky's
report on the condition of the grade
schools was good. One criticism was
the overcrowded condition of several
rooms.

WAKE UP, WAUPACA!

Poor old Waupaca County! You
are still discussing the advisability of
a County Agricultural Representative
and letting Oneida County take first
prize at the national potato shows.
While we are getting first prize at
the shows, we feel there is much for
us to learn. Four years ago this
county started the first agricultural
representative system in state and
nation. You are still discussing the
advisability of an agricultural rep-
resentative system for your county.
Wake up, you have the soil, get some
live men as leaders. Ten years ago,
we were purchasing our spuds of you.
Now you are paying us a high price
for standard potato seed. This is the
difference between self satisfaction
and progress.

We love you and this is why we are
urging you to cast aside your dead
leaders and follow the live ones.

INSTITUTE DRAWS BIG ATTENDANCE

About Two Hundred Teachers
and Board Members At
Annual Meeting

The annual School Board Conven-
tion and Teachers' Institute was
opened today in the Training School
assembly room. About 200 members
of school boards and teachers gathered
at ten o'clock, with Superintendent
Lowell in charge. He explained carefully and forcefully the requirements of the law concerning
special state aid to the rural schools.

J. F. Powers of the Laurel Book
Company, Chicago, explained the
"Economy" system of penmanship
which is being used in many
schools of the county.

One of the best presented topics
of the day was that given by Mrs.
M. F. Tompkins, who spoke on Medi-
cal Inspection in the Schools. She
showed the immense handicap which
many children are under because
they suffer from easily preventable
diseases. Proper inspection could
easily discover these diseases. She
urged the adoption of this work in
all the schools of the county.

The State Department of Education
was represented by Rural School
Inspector Larson who spoke twice.
His first topic was "Concrete Teach-
ing." He showed the immense value
of doing work outside of the text
book in such subjects as arithmetic,
agriculture and civil government. In
his second talk Mr. Larson pointed
out the necessity of observing the
laws of hygiene in the school house.
He urged that health conditions be
improved by the use of both the
home and the school.

Principal Dresden spoke on com-
munity meetings in the school houses
and their benefit. He explained the
benefit which would come to a school
district from such meeting and urged
that school boards make use of
the Agricultural Representative and
the Training School for assisting
teachers in holding them. He also
spoke of the arrangements made with
the State University whereby a ser-
vice of lantern slides is had for the
holding of evening meetings.

Agricultural Representative Judy
showed the value of pedigree grains.
He emphasized the absolute necessity
of preventing smut by adopting
modern methods of seed disinfection.

Unquestionably the meeting was
the most successful school board
convention ever held in this county.
It was thoroughly practical. "Hot
air" was noticeably absent.

The Woman's Club held its regu-
lar meeting Tuesday afternoon at
the club rooms.

One new member, Mrs. Leadbe-
ter, was admitted to membership.
Mrs. Orr told the stories of the two
operas, Charpentier's "Louise" and
Humperdinck's "Hansel and Gretel",
which formed a part of the program
for the afternoon meeting. A piano
duett from Hansel and Gretel was
performed by Mesdames Hampton &
Lowell. There were some fine rec-
ords from both operas, played upon
an Edison, which Mr. Jewell kindly
loaned the club.

With insurance obtainable at a low
rate, \$3 for three cents and \$10 for
five cents, it is expected that many
senders of Xmas presents will ins-
ure their parcels this year espe-
cially as this feature has been in force
long enough to be known by the us-
ers of the mails.

Another feature of the mail ser-
vice which senders of presents can
take advantage of is the special deliv-
ery service. By paying an extra
ten cents packages will be delivered
immediately upon receipt at the office
of destination.

The following Christmas don'ts are
given by Postmaster Matt Stapleton
and the public may do well to keep
them in mind:

1. Books that make direct appeal
to our lower nature and which exalt
passion at the expense of principle.

2. Books that confuse right and
wrong, which blur our moral vision.

3. Books which are untrue to life
by being false to the facts of life.

Don't mail parcels at street boxes.
Take them to the post office or pos-
tal stations, and clerks there will tell
you if you are properly prepared for
mailing.

Don't use lead pencil for address-
ing your parcels. Use pen and ink.

Don't mail sealed parcels unless
prepaid at the letter rate of postage.

Don't mail parcels without return
address.

Don't mail parcels unless they are
carefully packed and wrapped.

Don't paste charity stamps on the
addressed side of packages or letters
and not at all on foreign mail.

Don't use ordinary stamps for spe-
cial delivery, when special stamps
may be obtained, because ordinary
stamps are likely to be considered
part of the postage.

Don't mail parcels weighing more
than fifty pounds within the first and
second zones.

Don't mail parcels weighing more
than twenty pounds beyond the sec-

Don't mail parcels exceeding 84
inches in greatest length and girth.

Don't forget that parcels may be
insured, sent C. O. D. or by special
delivery.

SHORT COUNCIL MEETING TUESDAY

Less than two hours were consum-
ed by the city council in transact-
ing the business on hand at the regu-
lar December meeting Tuesday night.
The meeting was one of the shortest
of the year and the matters disposed
of were of little importance.

The report of Carl Olson, city su-
perintendent of water works, was
read and accepted. Alderman Frank
Pecor's attempt to amend the ordin-
ance relating to the closing of saloons
was voted down owing to the fact
that the resolution was not filed in
time.

Permission was granted to Mrs.
Mildred Shepard to erect an iron
portico in front of the Bijou theater
on Davenport street.

Thomas Morse, city attorney, made
a few remarks bearing on the Sutton
case.

Under the supervision of Principal
B. Mack Dresden a number of One-
ida county training school students
attended the meeting to acquaint
themselves with the manner in
which council sessions are conduct-
ed.

CALLAHAN SPEAKS

Before a fair sized audience at the
Grand Opera House Sunday after-
noon John M. Callahan of Milwau-
kee gave an interesting lecture, lec-
turing on his subject, "fraternali-
sm." Mr. Callahan is an eloquent
speaker and his talk was well re-
ceived. He possesses a keen sense
of humor and interspersed his ad-
dress with many amusing anecdotes
and bright witticisms.

Mr. Callahan was brought here under
the auspices of the Catholic
Knights of which order he is state
secretary. Sunday evening a ban-
quet was given in his honor at St.
Mary's school hall.

Father A. M. Wuechter, former pas-
tor of St. Mary's church, was in the
city today.

Mrs. Smit Nichols is ill at the home
of her mother in this city. She was
brought here from Keeno to day by
her husband.

GET MAN WANTED FOR MURDER

Forest County Officer Arrests

Walter Svedusky In

Laona Saloon

Walter Svedusky, alias Walter Wolf, who is charged with causing the death of James Singer of Monico in that village, Saturday, November 27, was taken into custody in Laona, Forest Co., Wednesday, after evading the officers since the day of the crime. Svedusky was arrested by Oscar Olson, a Forest county deputy sheriff, who had traced the man from one logging camp to another on information furnished him by Under-sheriff Hans Rodd of this county.

When arrested Svedusky was in a saloon. Although he made no attempt to resist the officer he stoutly maintained that he was not the man wanted and refused to make known his name. It was not until the arrival of Under-sheriff Rodd Wednesday night that the prisoner admitted his identity. To the under-sheriff Svedusky denied all knowledge of the killing of Singer. He said that he merely struck the victim with his fist and did not hit him with a rock or weapon of any kind. He expressed surprise at Singer's death.

Under-sheriff Rodd brought Svedusky to this city Thursday morning and he is now in the county jail awaiting preliminary examination on a charge of murder.

At the inquest conducted Saturday afternoon by Coroner Charles DeGanter on the death of James Singer the jury decided that Singer came to his death by wounds inflicted by a stone thrown by Walter Wolf.

We are always willing to please you. No matter what your mission may be. Jacobson Dry Goods Co.

DANGER SIGNAL
If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough so often follows a bad cold or an attack of the grip. Mrs. Thomas Beeching Andrews, Ind., writes: "During the winter my husband takes cold easily and coughs and coughs. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.

Christmas Bells

By MINNA IRVING.

Copyright 1915 by American Press Association.

WHEN all the world is white with snow
Ten million tongues repeat
The tidings of the birth of Christ
In accents clear and sweet.
They sing the message to and fro
O'er frosty hills and dells
Till every earthly ear has heard
The music of the bells.

THEY are the echoes of a voice
Still ringing through the night
From blossoms bearing bards of sun
To lands of frozen white,
First heard on old Judea's plain,
Where flocks and shepherds lay,
By time and distance multiplied
To welcome Christmas day.

FOR then a shepherd boy awoke
And rubbed his sleepy eyes
And saw a star of wondrous light
Above him in the skies
And, pointing to its glory, cried:
"All hail the Christmas morn!
Behold the star of Bethlehem,
The Prince of Peace is born!"

Light Up on Christmas Eve.
Some residents of Boston received the following announcement dutifully printed in old English a few days before a recent Christmas:

"To All Whom It May Concern—
Greeting: We again bespeak your good will and assistance in adding to the cheer of Christmas eve by placing lighted candles in the windows of your houses between 6 and 10 at night, to the end that the hearts of passersby may be gladdened and that the day of good will and glad tidings may be fittingly commemorated."

The response was more general than was expected. Scarcely a house or those to whom the appeal was addressed had its candles arranged long before the hour appointed and promptly at 6 o'clock lighted up in a flare of Christmas light. The effect of good Christmas cheer and of welcome to the coming festival was charming. The custom will be observed hereafter.

Weak kidneys need help.

They're often overworked—they don't get the poison filtered out of the blood.

Will you help them?

Doan's Kidney Pills have brought benefit to thousands of kidney sufferers.

Rhinelander testimony proves their worth.

Oliver Shorey, stationary engineer, 726 Margaret St., Rhinelander, says:

"I was bothered a great deal by lame back and pains across my loins. I had been in this shape for some time, but I was troubled mostly while at work. My back was so stiff and lame that it hurt me to stoop or lift and I was also annoyed by kidney weakness. Finally someone advised me to try Doan's Kidney Pills and I did. They cured me and I have never had any sign of kidney trouble since."

tunity to purchase the same and for that purpose said committee is instructed to give at least two weeks notice in at least two papers in said county, by publication therein once in each week for two successive weeks, that sealed bids, from said residents, will be received at the office of the County Treasurer of said county of each day and hour as said committee shall so give in said notice. That in case such bonds cannot be disposed of to residents of said county then said committee shall proceed to sell the same, at public sale to the highest bidder for the entire issue, all bids to be sealed, and deposited in the office of the County Treasurer on or prior to the date of sale which said date is to be fixed by said committee.

Section 4. For the purpose of providing the necessary funds to meet the interest accruing on said bonds and also to pay and discharge the principal of said bonds at Maturity, there is hereby levied upon all taxable property in said county, in addition to all taxes, the following direct annual tax to wit:

For the year 1916, \$537.50 to pay interest due January 1, 1917.

For the year 1917, \$3,171.25 to pay interest and principal due July 1, 1917, and interest due January 1, 1918.

For the year 1918, \$3,063.75 to pay interest and principal due July 1, 1918, and interest due January 1, 1919.

For the year 1919, \$2,956.25 to pay interest and principal due July 1, 1919, and interest due January 1, 1920.

For the year 1920, \$2,838.75 to pay interest and principal due July 1, 1920 and interest due January 1, 1921.

For the year 1921, \$2,741.25 to pay interest and principal due July 1, 1921 and interest due January 1, 1922.

For the year 1922, \$2,633.75 to pay interest and principal due July 1, 1922 and interest due January 1, 1923.

For the year 1923, \$2,526.25 to pay interest and principal due July 1, 1923 and interest due January 1, 1924.

For the year 1924, \$2,418.75 to pay interest and principal due July 1, 1924 and interest due January 1, 1925.

For the year 1925, \$2,311.25 to pay interest and principal due July 1, 1925 and interest due January 1, 1926.

For the year 1926, \$2,203.75 to pay interest and principal due July 1, 1926. And in each of said years the County Clerk of said county shall apportion the bond tax hereinabove levied for such year among the several towns, cities and villages in said county in the same manner and at the same time as the tax for general county purposes for such year is apportioned. And in each of said years the bond tax hereinbefore levied for such year shall be certified and extended upon the tax rolls and collected by the same officials, in the same manner and at the same time as the taxes for such year are certified, extended and collected.

Section 5. The money received from the sale of said bonds shall be placed in the Treasury of said county in the County Road and Bridge Fund and shall be used solely for the purpose of paying for the improvements of such portions of the system of prospective State Highways hereinbefore referred to and shall be paid in the same manner that other moneys in said county road and bridge fund are paid.

Section 6. That this ordinance shall be in full force and effect from and after its passage, approval and publication.

Verage for cancellation of tax certificate No. 1514 on the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ section 23-37-9-E for the taxes of 1912 sale of 1913 and No. 1513 or the SE $\frac{1}{4}$ of SE $\frac{1}{4}$ section 23-37-9-E for taxes of 1912 sale of 1913 be cancelled for the reason that the taxes were paid by four different parties on the whole amount of these two descriptions as subdivided they were also assessed as full descriptions and such assessment making a double assessment of said lands and the amount charged back to the town of Pine Lake.

4.—That petition of Wm Hardell for cancellation of certificates and tax deed on the west half $\frac{1}{4}$ of Lot 3 section 9-35-9 lying south of the railroad track and based on the tax of 1907, sale of 1903 also on the above description based on taxes of 1911 sale of 1912 for the reason that the taxes were paid on lot 3 for each of the years above mentioned as shown by town treasurer receipt No. 335 for the year of 1907 and No. 242 for the year of 1911 and charged back to the town of Pelican.

5.—That petition of D. M. Hyde for the cancellation of tax certificate and deed issued against the NE-SW sec 20-37-11 E for the taxes of 1908 sale of 1908 be granted for the reason that the taxes on said description were paid as shown by town treasurer receipt No. 122 for the taxes of 1907 sale of 1908 and the amount charged back to the town of Piehl.

6.—That petition of Dennis E. Rice, for cancellation of certificate, No. 1758 for tax of 1912, and sale of 1913 on lot 5-19-33-11 E be granted for the reason that the description is all platted portion of Pelican Lake and that the amount be charged back to the town of Schoepe.

7.—That the petition of the estate of Oscar Jenne for the refund of \$1.33 on certificates No. 968, 969 and 970 sale of 1912 and not properly listed on sales book, be granted and amount paid.

8.—That petition of A. W. Brown for a quit claim deed, from Oneida County covering lot 5 Sec. 32-33-10 E, be granted for the reason that the old record of county lands acquired by tax title, page 223 of Volume 1 shows that the county's title was sold to Henry Herzog on Sept. 3 1901 for \$9.50 Brown Brothers Lbr Co. bought of Henry Herzog and have held undisputed title for more than ten years, and wish to have this deed to remove cloud from title.

9.—That petition of A. W. Brown, for cancellation of certificate issued for the taxes of 1910 sale of 1911, Lot 9-33-37-5 E be granted for the reason that the taxes was paid to the city of Rhinelander, as shown by city treasurer receipt No. 31 issued March 23, 1911, and the amount \$12.42 be charged back to the town of Newbold upon surrender of certificate.

10.—That petition of A. W. Brown, for cancellation of certificate No. 425 on the NW SE-4-33-5-E for the tax of 1911 sale of 1912, be granted for the reason that the same was government land at time of assessment and exempt from taxation and the amount of \$6.75 be allowed and charged back to the town of Minocqua, upon surrender of certificate.

11.—That the petition of A. W. Brown for the cancellation of Tax Deed on the NW-NE-9-37-8 for the tax of 1902 sale of 1903 be granted for the reason that same was county land on the date of assessment, and exempt from taxation. Also that the petition for cancellation of tax deed on the SW-NW-23-37-8, issued for the tax of 1903 sale of 1903, be granted for the reason that description is covered by lot 7-Sec-23-37-8-E on which taxes were paid for the year 1903 as shown by town treasurer's receipt No. 63 and that the amount as shown of \$19.46 be refunded and same charged back to the town of Newbold.

12.—That the petition of C. Eby for cancellation of tax deed on the NW-NW-6-36-7 based on taxes of 1883, sale of 1884 be granted for the reason that this land was Government land at date of assessment and exempt from taxation.

Keep Prosperity in THIS Town

FROCK THAT COPIES FASHION OF HER ELTERS.

Attractive and Economical, It Will Be
Pleasing to the Mother as Well
as a Delight to the Small
Wearer.

Even the little tots are disporting themselves in the contrasting material costumes that were so much in vogue in the eighties. The fashion has one thing to recommend it, and that is its economy where old clothes are to be made over. Part of Jane's and of Milly's frock would make a quite new-looking suit for Milly. Or a good skirt could be made to serve duty for a tunic of new material. As every mother knows, children are hard on their sleeves.

The writer recommends the long sleeves and, if one has the time, scalloped bottom with a narrow bias fold of a contrasting color stitched over the edge of the scallops.

The material used here is a striped and a plain gingham, and the blouse is stitched to the waistband and worn with an outside belt. For dress wear there should be a dainty white lingerie collar.

Now that grown-ups wear plaited and gathered dresses the small ladies want to do the same—or their mothers want them to, which amounts to the same thing. Perhaps the prettiest way of putting in gathers on little folks' frocks is the old-fashioned smocking, which has been revived and

Frock for the Schoolgirl

has, perhaps, never been more popular. Smocking is easily learned, and it makes a very pretty decoration to smock white frocks with colored cotton, or blue or pink linens and cotton with white embroidery cotton.

If a mother does not wish to take the trouble of making a skirt and tunic according to this pattern she can easily omit the tunic skirt.—Washington Star.

PRETTY ON THE NIGHTGOWN

Hand Embroidery is to Be Recommended, Though of Course There Are Many Substitutes.

Hand embroidery is a very satisfactory means for lifting a nightgown from the commonplace. A crocheted lace is another effective thing to use to ornament a nightie; but there are women who haven't the time nor the ability to do either kind of fancywork, and yet they long to make attractive nightgowns for themselves. For these, then, a nightgown which was included in a young girl's trousseau should be described, so that it can be copied by women out of the fancywork class.

The nightgown was of the softest, finest quality of nainsook. It was made empire. The round neck was finished with embroidery beading. Gromets of smocking at either side of the front afforded fullness and were done in blue mercerized cotton.

CONGREGATIONAL CHURCH
At the vesper service, 4:30 Sunday afternoon, Mr. Heyl will discuss the topic: "The Demon Rum." Notice will be served at this service to the saloon keepers of Rhinelander who are violating the Sunday closing law that if they persist in doing this Mr. Heyl will lead a fight in creating public sentiment sufficiently strong to create a law and enforce it which will prevent the sale of liquor in Rhinelander seven days in the week instead of only one. It's high time to stop trampling under foot the laws of our state and city.

At eleven o'clock Morning Worship with special music and a discussion of the theme: "Building For Eternity."

Bible School at 10 o'clock.
Young People's service at 7:15 p.m.
You are cordially invited to all of these services.

W. C. HEYL, Minister.

CHRISTMAS ROSEBUDS.

Charming Belief of Roumanian Peasants In Coming of the Christ Child.
Every year on Christmas eve, they say, the Christ Child, on his way to Germany, comes through the Roumanian hills to gather rosebuds and to kiss into the hearts of those he cannot carry a love charm which has power to awaken a lasting love in the heart of any one to whom it is presented, provided the gift is made in the open air in solitude before the hour of 10 and ere a word of greeting has been spoken. On the night before Christmas, therefore, the gipsy swains go rosebud hunting, and on Christmas day the chosen maidens who accept lovers' gifts wear the buds.

What roses are to holiday Roumania grapes are to gipsy France. Lovers divide a perfect bunch of them; beggars offer grapes to passersby, expecting in return a coin for each one taken. Similarly in Hungary, lovers share a dumpling pie. In Italy a Christmas fagot, if it be the last in the bunch, is a token of affection and is sacred to light the wedding fire when given by a maiden to her lover. In Spain there are colored lights and fireworks which lovers watch together. And in Somersetshire, England, where the Christmas thorn grows, it was long the custom for young people to gather underneath a thorn tree to hear the buds burst into bloom.

ANOTHER NEW FARMER

Through the efforts of C. P. Crosby forty acres of land near Harshaw was to be sold to Albert Hendrickson of Chicago by Barrie Winnie. Mr. Hendrickson intends to farm the tract and will move thereon next spring. He is on old employ of the Kimball Piano company in Chicago but is tired of factory work and believes that the soil offers splendid prospects for the future.

SINCE TAKING PERUNA

I can say my bowels are much more regular.
My heart is stronger.
My appetite is much better.
My throat is much better.

Mrs. William H. Hinchliffe, 20 Myrtle St., Beverly, Mass., writes: "I have taken four bottles of Peruna, and I can say that it has done me a great deal of good for catarrh of the head and throat. I recommend Peruna to all sufferers with catarrh. I do not think I ever felt much better. I am really surprised at the work I can do. I do not think too much praise can be said for Peruna."

Those who object to fluid medicines can now procure Peruna Tablets.

A Christmas Thought

By LUCY LARCOM.

O H, Christmas is coming again, you say,
And you long for the things it is bringing,
But the costliest gift may not gladden the day
Nor help on the merry bells ringing.
Some getting is loosing, you understand;
Some hoarding is far from saving.
What you hold in your hand may slip from your hand;
There is something better than having.
We are richer for what we give,
And only by giving we live.

Your last year's presents are scattered and gone,
You have almost forgot who gave them.
But the loving thoughts you bestow live on
As long as you choose to have them.
Love, love is your riches, though ever so poor;
No money can buy that treasure,
Yours always, from robber and rust secure,
Your own without stint or measure.
It is only love that we can give;
It is only by loving we live.

For who is it smiles through the Christmas morn—
The light of the wide creation?
A dear little Child in a stable born
Whose love is the world's salvation.
He was poor on earth, but he gave us all
That can make our life worth living.
And happy the Christmas day we call
That is spent for his sake in giving.
He shows us the way to live;
Like him, let us love and give.

Errors are Ancient History

Error-proof bookkeeping is just as necessary for the protection of your money on deposit with us as is a modern burglar-proof safe.

The Burroughs Bookkeeping Machine which we are using in our accounting department, handles the bookkeeping work with absolute accuracy. Its figuring is done by parts of hardened steel—it can't make a mistake.

Errors in the handling of our depositors' accounts are ancient history since we have been using this modern equipment.

This extra safeguard in handing the figures which represent your transactions

with us is just one of the ways in which we are prepared to give you service.

Another service we offer is consultation and advice in the business affairs of our customers, when such help is asked for.

Talk over your business and financial problems with us—any officer of this bank will be glad to consult with you on such matters at any time. Often we are able to make helpful suggestions.

Any service, consistent with good banking practice, which is in the power of this bank to offer you will be given freely and cheerfully at any time.

BUFFALO HERD IS GROWING

Animals on Government Preserve in Oklahoma Continue to Show Gratifying Increase.

The government's herd of buffalo on the Wichita national forest in Oklahoma, which is also a federal game preserve, has been increased by the arrival of ten calves, according to a report received by the forest service from the supervisor in charge. The herd, which now comprises 62 specimens of the almost extinct bison, is in good condition, says the supervisor, and promises to continue increasing at a rapid rate. Eight of the calves are females, bringing the number of heifers and cows up to 30. The bulls number 32 and have been placed by themselves in a pasture which has just been fenced in for them. Three years ago the buffalo herd in the Wichita forest was little more than half as large as it is now. It is said that the other game animals in the preserve, including the elk and antelope, also are increasing, due to the protection afforded, not only against hunters but against wolves, wildcats and other predatory animals, which committed serious depredations from the establishment of the preserve in 1905 until measures were taken to stop them. In protecting the game from predatory animals, the wardens and forest officers are also promoting the interests of local stockmen, who graze several thousand head of cattle on certain allotted areas within the preserve.

MAKES A PLEA FOR FICTION

Writer Puts Up Argument for Retention of Popular Literature in the Country's Libraries.

The dropping of fiction from the public libraries, as proposed by the head of the bureau of statistics and investigation as a means of economy, would accomplish at a stroke a consummation long devoutly wished by many. That is, it would materially reduce the percentage of novels read as compared with that of other books. Perhaps Mr. McIntyre has heard that fiction was decreasing in popularity, and thinks that he is merely aligning himself with a growing tendency. We fear, however, that when he hears from the people he will have to revise his ideas. His proposal will be met with a counter-proposal, Banish fiction? Why not banish all other literature instead? Would the saving not be as great? Nay, would it not be greater? As for novels being a "form of entertainment," a luxury, as our statistician holds, they are in reality almost as much of a necessity as the newspapers. Millions go through life comfortably without rubbing elbows with even so human a nonfictionist as John Stuart Mill, but whoever lived until he had breathed the wind that blows through the pages of "Ivanhoe" and "Vanity Fair?" —New York Evening Post.

Detects Approach of Storms.
A revival of the long-abandoned filings coherer used so extensively in the pioneer days of radio communication is presented in the novel form of an electric storm detector used at the Waterside station of the New York Edison company. Briefly, the equipment comprises a filings coherer, a sensitive relay, a decoherer for restoring the filings to their normal, loose state, and an alarm bell. Long before a thunderstorm is within hearing distance the sensitive coherer operates the alarm bell and gives warning to the power station attendants of the increase in load that is to follow. It is said that during some storms when it becomes quite dark the load is increased over 60,000 kilowatts in the course of five minutes' time. It is obviously necessary for the attendants to have ample warning so as to be prepared to take care of the sudden load that is thrown on the generators.—Scientific American.

Describes Habits of Penguin.
The penguins of South Georgia are described in a very interesting and informative memoir by R. C. Murphy, issued by the museum of the Brooklyn Institute of Arts and Sciences. The writer's field work in this subantarctic island extended from November, 1912, to March, 1913, thus including the greater part of the breeding season. During this time he acquired a rich store of information concerning the life histories of the local species—especially the king and johnny penguins—and would have gathered more but for the stupid vandalism of the crew of the sealing brig on which he made the voyage. A curious discovery of the author was a penguin graveyard, a pool of snow water on a mountain top, to which these strange birds retire to die.

VICTORY FOR R.H.S. IN FIRST GAME

Eagle River Five Loses At Basket Ball By Score of 36 To 20

Last Friday evening at 8:15 the basketball season of Rhinelander high school for 1915-16 was opened when the local five met Eagle River in the school gym. As only one week of practice had been held Coach Sorenson had the entire squad in suits to give everybody a chance to show what they could do, "under fire."

Eagle River chose the south basket and Referee Sorenson started the game. Immediately after the tossup Arnold secured the initial basket of the season. Then McRae awoke and started rolling them in with a regularity that was startling. His fast work all through the game was about the only work seen, out of the ordinary, for so early in the season. Eagle River were at a loss in getting the ball near their basket and resorted always to long shots which sometimes came dangerously near the desired point. The game was marred by a great deal of the early season roughness which experience and coaching will eliminate.

Eagle River's first point was secured on a free throw and this rather revived her men because from then on they held the ball a considerable part of the time. The playing of the local guards was good considering that neither had ever had a suit until this year. One thing certainly can be said of them, "they were persistent", and the manner in which they broke up the Eagle River plays was anything but "affectionate". This fact was brought out by the large number of fouls which were called on Rhinelander. At the end of the first half when the game was "laid away," with the score 23-4, Coach Sorenson used a number of substitutes.

The second half started with a basket by Eagle River. Then McRae made two in succession. Arnold dropped another pretty shot and Eagle River made a free throw. The second half was a good free throw practice for the visitors as they had some eighteen chances. Sullif replaced Usher at guard and Knister, Little and Bennett worked at forward in D. Cain's place. Sullif should make a good guard and Knister and Bennett showed quite a spurt of speed and should make a strong bid for the team. Little's work was also worthy of mention, and because it is the first time he has ever represented the school in athletics he was given a royal reception.

The work of the visitors was good; they are handicapped in many ways, as they lack a gymnasium, funds and more important, a band of people to support their team. Notwithstanding this they are full of pep and gave the locals a hard chase. This is their first attempt at basketball and we sincerely hope to continue able relations with Eagle River. They journeyed to Rhinelander in cars and a more gentlemanly bunch has never visited us. Pinch was their star man and must be given credit for his plucky game.

Next Friday the locals clash with Birnamwood. A fast game is assured as Birnamwood always has a good team. Rhinelander is out for the state championship this year and from prospects will make a strong bid for it.

KILL 3,000 DEER IN 1915 SEASON

That the number of deer killed in Wisconsin this year is less than one-half the number killed in 1914 is evident from the record now being made up in the office of the conservation commission at Madison. The number reported to date for the present season is 2,700, reports yet to come, probably, will bring the number above 3,000, all bucks of course. The record for 1914 was 7375 bucks and does. The total in 1913 was 6060 and in 1912 it was 5853.

In former years fully 60 per cent, of all the deer killed were does. Upon this basis the slaughter of does in 1914 was more than 400. What effect the operation of the buck law may have as a conservation measure may be easily figured out from these facts and the illicit killing of a few does, will not affect the conclusion materially.

The number of hunting licenses issued in the state is somewhat smaller than last year, according to incomplete returns now in the department. Reports to date show licenses issued as follows:

Resident, 129,550 at \$1—\$129,550 Non-resident—Small game, 591 at \$10—5,910 Large game, 237 at \$25—5,925

Total revenue to date.....\$141,385

Not all the counties have reported, however, on the resident license and the above figures will probably be increased by 10,000.

The number of licenses issued in 1914 was: resident, 156,813; non-resident, small game, 655; large game, 379. Holders of resident licenses may hunt all kinds of game but non-resident may not hunt deer without a large game license.

P.A. Patterson's many friends will be sorry to learn that he is seriously ill at his home on the south side. For the last two years Mr. Patterson has been in declining health.

"Possibly you do not realize that on account of the number and speed of trains this is a very dangerous practice and one which may result in the crippling of your child or the loss of its life. We feel that it is our duty to do all that we can to impress on the minds of parents the great importance of stopping this practice."

"During the last twenty-five years 113,570 persons were killed and 123,611 persons injured while walking on railroad tracks and flipping cars in the United States as shown in the diagram."

"Fifty-three per cent of all fatalities on the railroads are trespassers. Will you not interest yourself in this matter and thereby help us to save the life or limb of your child, as well as the lives and limbs of the men and women of your community who indulge in this extremely dangerous practice?"

WARDENS NAB MAN WITH SEVEN DOES

Roy Minton Pleads Guilty To Wholesale Violation of "One Buck Law"

Roy Minton of Tomahawk Lake was arrested by state conservation warden Saturday for having in his possession the carcasses of seven does. He was caught with the goods and the easiest way out of the difficulty was to accompany the warden to this city and settle in court before Judge Smith. He pleaded guilty to the charge and was fined fifty dollars and costs which he paid. The deer were confiscated. Conservation warden have been active in Oneida and other northern Wisconsin counties during the last month and many violators of the game laws have been brought to justice.

PLAN NEW CITY FOR CHINA

Hankow, Destroyed in Revolution, May Be Rebuilt in the Form of a Triangular Island.

The recent agitation regarding the proposed rebuilding of that part of Hankow, China, destroyed during the revolution, has developed into a plan which may make the city a triangular island, and for this an English company offered (in July, 1914) to furnish \$50,000,000 at the close of the war then pending.

Commissioner Yan Tu has drawn up a comprehensive plan of improvement. One preliminary survey and one minute survey have been made, and preparations for laying out the site, digging the new canal and constructing the river bridges are being actively pushed on.

The best part of the city is now a strip of land along the river Yangtze, and this has been turned into concessions, so that nothing can be done in regard to it.

Next in importance is the land between the river and the old market place, which is the only area on which developments can be made. As the lower end of the market place is connected with the concessions, no extension can be made on that side.

At the rear is a shallow lake, and without great effort it cannot be turned into a market.

A comprehensive review of the situation which recently appeared in the Chinese National Gazette has met with widespread approval. It says: "The strip of land behind the concessions and the site of the lake are all distant from the river, hence transportation is difficult. Chinese commerce should extend and expand, and other undertakings must be effected."

Those in charge of the project now intend to open a canal, beginning at the upper part of the Han river, extending along the rear of the concessions and joining the Yangtze river. Thus Hankow will be a triangular island.

"On every side of it vessels will be able to cast anchor, and the development of industries and commerce will go forward by leaps and bounds."

WAR RELICS HELD OF VALUE

Gruesome Mementos That Have Brought High Prices When Disposed Of at Auction Sales.

There was sold by auction a few years ago the spear that was used by a rebel dervish to kill General Gordon.

On another occasion the sword used by Lord Cardigan in the battle of Balaclava was disposed of at the same auction mart.

A very different war relic realized a very different price. This was the silver-gilt table service used by Napoleon in the course of his many campaigns, and it went for \$3,500.

A really extraordinary war relic was brought to light in an English court some years ago. A woman applied to the magistrate for a summons against a pawnbroker for damage to a hearth rug. She explained that during a campaign on the Indian frontier, her son had made a large hearth rug out of the garments of his slain comrades, and sent it home to her.

A few years ago a relic of the siege of Paris was discovered in a windmill near Besancon. This was the mummified body of a pigeon, to one of the wings of which a quill was attached. Inside this was a brief message, dated 1870, which read:

"Darling—All well, but starving—P. G." The pigeon was one of the homers which had been released during the siege, and maybe shot by the Germans.

Bunyan a Typical Hypochondriac. "If Hamlet, the Dane, is the prince of psychic miseries, then surely John Bunyan of Bedford jail takes rank as the king of hypochondriacs," writes Dr. Howard D. King of New Orleans in the New York Medical Journal. Doctor King analyzes Bunyan's "Pilgrim's Progress" and calls his "Grace Abounding Unto the Chief of Sinners," the most vivid picture extant of a hypochondriac.

After quoting Bunyan's words, "I beheld the condition of the dog and the toad and counted the estate of everything that God had made for better than this dreadful state of mine," he says:

"No normal individual ever felt like that; but to the hypochondriac, alone in creation, no past, no future, can be so bad as the present."

Upholds His Cab's Honor. It cost James A. Ryan \$25 to uphold the dignity of the cab which he drives. Judge Knowles, in the principal court, imposed a fine of that amount as punishment for the beating Ryan inflicted upon Charles P. Milligan of Ninth street, near Butler, when the latter referred to the conveyance as a relic of Noah's ark.

Milligan, who is an undertaker, had solicited the services of Ryan's cab for a funeral which he had in charge, but when the vehicle appeared he feared at its appearance. Ryan resisted the criticism so vigorously that the undertaker caused his arrest for assault—Philadelphia Record.

Gloom for the Early Riser. "It's always darkest just before dawn," quoted the ready-made philosopher.

"And yet," rejoined his pessimistic friend, "some people say 'early to bed and early to rise,'"

ALLEGED BANDITS ELUDE OFFICERS

Men Wanted For Robbing Saloon and Shooting Deputies Still At Large

After spending one night and nearly a day scouring the woods and marshlands in the vicinity of Gagen and Atkins for the three alleged bandits, who shot Under-sheriff Hans Rodd and Deputy Sheriff Anderson, the posse of citizens and deputies headed by Sheriff Charles Crofoot, returned to Rhinelander Friday night without their quarry. Several members of Company L, who acting as individuals gave their services voluntarily, were in the posse.

Arriving at the place near Atkins, where the fugitives had their camp, only a smouldering fire and an uncooked chicken stew, confronted the men hunters. Tracks leading from the camp were followed by the posse for several miles. It was evident that the trio had separated and making for the Soo railroad tracks probably succeeded in boarding passing freight trains. It is believed that two of the men escaped on trains and that the other took a southwesterly course through the woods toward Monico.

Sheriff Crofoot states that one of the men wore a peculiarly spiked shoe which left an impression similar to that discovered about the Soo depot in this city at the time of the recent safe robbery. That at least one of the trio took part in this robbery is the opinion of the officers.

Contrary to previous reports the fugitives are not Kentuckians but are said to be foreigners who have

HAYNO ESTATE GOES TO HEIRS

The matter of the will of Eli Hayno has been before the County Court at its regular term this week. St. Mary's hospital of this place was mentioned in the purported will as the legatee to take the property left by Mr. Hayno, who, it will be remembered, died in the hospital here on Oct. 3rd, 1915 of diabetes.

Relatives of the deceased contested the will proposed on the ground that it was not properly drawn according to the laws of the state of Wisconsin and also that Hayno did not have his right mind at the time. Counsel for the heirs were Attorneys R. J. Morter and Charles F. Smith while Attorneys S. S. Miller and H. L. Reeves appeared for the proponents of the will.

After two days of trial settlement of the matter was made on basis of above grounds having existed and the will was disallowed by Judge H. F. Steele.

The heirs from away are Mrs. H. E. Brown of Saginaw, Mich., Mrs. Wm. Wardell, Duluth, Minn., and Mrs. Rose Bartlett of Hurley, Wis.

been shacking for several months in an abandoned logging camp near Atkins. The officers have fairly good descriptions of them and their apprehension is looked for at any time.

Several suspects were placed under arrest within the last week but all succeeded in giving a clearance and were released.

Under-sheriff Rodd and Deputy Anderson were wounded only slightly and have been in the active discharge of their duties since the shooting.

HART'S THE CHRISTMAS STORE FOR EVERYBODY

SPECIAL PRICES ON COATS, SUITS AND DRESSES FOR THE HOLIDAYS

EVENTS OF WEEK IN NEARBY TOWNS

Park Falls—The Park Falls Lumber Co's mill resumed operations on a double shift Thursday and will continue to run night and day throughout the winter. This is good news to the business men of Park Falls and to the laboring classes as well, and it will tend to increase the liveliness and prosperity of the city to a very considerable extent. While the night shift does not require as many men as the day it will mean a total increase of possibly 100 men and a corresponding increase in the company's pay roll. Two logging camps will be operated throughout the winter in the company's eastern tract of timber and two in the western tract, each camp employing in the neighborhood of 150 men.

Tomahawk—Andrew Johnson, a mason by trade and well known in this city, died from exposure to the ice cold water Thursday afternoon. He had returned from camp and decided to take a shorter course and started over the Wisconsin river, which he thought was safe. He had reached about 150 feet from shores of Bradley park, when the ice gave way and he was plunged into the water. Assistance was rushed to the unfortunate man, but it required about an hour to get him out. When taken to shore, he was in a semi-conscious condition and passed away within a few minutes. He tried to speak to his rescuers but they were unable to hear his last words.

Hayward—The Farmers' State bank of Hayward will be formally opened Dec. 11. The work of remodeling the building is being rushed to completion and it is expected that it will be done on time. The building will be one of the finest of any like institutions in the northwest. It will have a capital and surplus of \$20,000. C. D. Benack is president; J. C. Davis, vice president; C. E. Wise, cashier; Palmer Moreland, assistant cashier. The directorate is composed of some of Hayward's most prominent business men.

Gladstone—With the departure of the steamer Huron of the Mutual line from the flour docks November 30, the 1915 season of navigation at Gladstone came to an end. The steamer Davidson cleared from the elevator early in the afternoon on the same day with the final cargo of grain. Both boats were well on their way down lake before the expiration of marine insurance. All boats are permitted to reach their destination before the cancellation of their 1915 insurance takes place. If they navigate after that time, they must do so at their own risk or carry an extended insurance policy, which is obtainable at a much higher rate of premium.

Florence—It has been discovered that Chas. Hultgren, the Homestead farmer, who disappeared from home November 12, is over \$100 short in his accounts as treasurer of his school district. It is probable that this was the reason for his sudden departure from Homestead. However, Mr. Hultgren should not have left on this account, for he was in a position to have been able to raise sufficient funds to cover the shortage. It is reported that the family are now thoroughly conversant with all the facts of the case. So far no trace or clue of his whereabouts has been discovered.

Ironwood—The ore shipping season from this range for this year is now practically at an end. Shipments from this range have about been completed and this work will tie up for the season at the end of this week. All the mines on the range have now begun the work of stockpiling for the winter. The Soo road this year has taken 1,012,773 tons of ore from the range, compared with 758,144 tons

carried in 1914. The Northwestern road has hauled 4,134,000 tons of ore to the Ashland docks this season, an increase over 1914 of 1,528,725 tons. The shipments of the two roads for the season total 5,146,773 tons.

STATE FAIR DATES
SEPT. 9 TO 17

Madison, Wis., Dec. 6.—The Wisconsin State Fair will be held Sept. 9-17. These dates were given to Wisconsin by the American Association of Fairs and Expositions during its twenty-fifth annual convention at the Auditorium in Chicago on Dec. 2 and 3. Wisconsin will follow Minnesota as usual.

Wisconsin was represented at the convention by C. P. Norgard, commissioner of agriculture; Oliver E. Remey, Secy. of the state fair; R. J. White of Milwaukee, and C. W. Harvey of Beaver Dam, members of the Advisory board, and C. W. Harte of Watertown secretary of the county and district fairs of Wisconsin.

One of the speakers before the convention was Dr. Charles McCarthy, of Madison, Dr. F. E. Stone, of Burlington, Wis., who officiates as starting judge at the Wisconsin State fair, also attended the convention.

Plans for the 1916 state fair will be discussed and outlined at a meeting of the advisory board tomorrow and Wednesday in the senate chamber of the capitol. One of the important

questions to be decided is whether the next state fair will be open for eight days or remain open but five days, as in past years.

MORGAN NOW SOLE OWNER OF BIJOU

J. H. Morgan has engaged in the moving picture business. Last week it was announced that Mr. Morgan had purchased the interests of W. F. Kelly in the Bijou but on Friday he closed a deal with F. E. Blackhurst whereby he became sole owner of the theater. Mr. Blackhurst immediately retired and has entered the employ of the Oneida Gas Company as bookkeeper.

Mr. Morgan intends to make several alterations and improvements at the Bijou for the convenience and comfort of his patrons. It will be his policy to present only pictures of the highest quality and the most famous film artists in the country will contribute to the nightly programs.

Mr. Morgan is a capable business man and although the movie line is new to him there is no reason why he should not be successful.

AERIE NO. 359 IS GROWING

Rhinelander Aerie 359 F. O. Eagles is increasing in membership at exceedingly rapid rate and if the present pace is maintained until the first of the coming year the Aeris will rank among the largest in the northwest. Acting under a special dispensation from the Grand Aeris in which the initiation fee has been greatly reduced 359 has added to its roster by leaps and bounds. At last Thursday night's meeting eighteen candidates were admitted to the order. The number of new members taken in at the last three meetings totals forty-seven.

At Thursday night's meeting the annual election of officers followed. The number of new members taken in at the last three meetings totals forty-seven.

SCORES 99 POINTS AT EUGENIC SHOW

At a Eugenic Contest held in Portland, Oregon, Nov. 11, little Howard Hahn, Jr., scored ninety-nine (99) points. The contest was held in the court house under the auspices

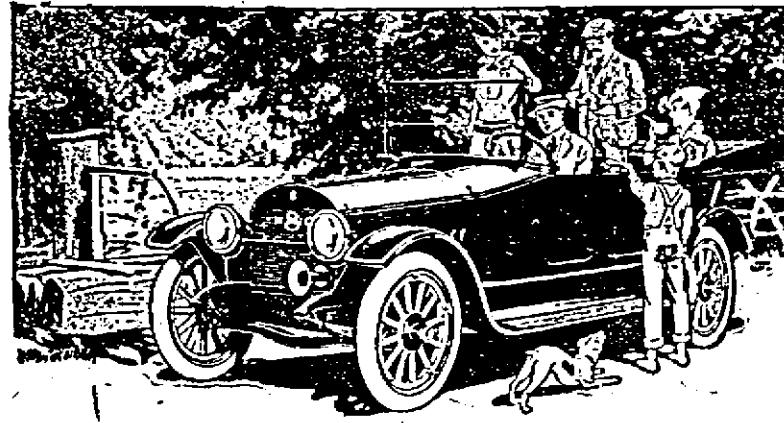

of the Oregon Congress of Mothers. It comprised five tests, given by five doctors, three of whom were specialists. 1 Mental and Developmental; 2 Measurements; 3 Physical examination of seventeen (17) parts; 4 Oral and Dental examination; and 5 Ear, Eye, Nose and Throat.

The little lad was five months and nineteen days old. His only defect came under the second test—he was one inch too small around his "tummy". He weighed seventeen pounds, was twenty-six inches in height, sat alone, had one tooth, (has two now)

and had never been sick a day in his life. His mother will be remembered as Genevieve Woodcock, formerly of this city.

Popular Goods Is a "Wet" State
A number of goodnatured, rough and tumble arguments took place during the recent Ohio campaign. The Columbus (O.) Dispatch tells the following story of one of them, that occurred in the city just before the elections:

"The speaker said that West Virginia had profited by voting dry, and a man in the crowd disputed this statement. He said that he was a salesman, that he visited every county seat in the state, and that his business had fallen off considerably since that state went dry. Another man spoke up and said that he was a salesman and 'made' West Virginia regularly and that his business had increased since the state became dry. He asked the fellow who reported a falling off of business what his line was and the latter reluctantly admitted that he sold undertakers' supplies, at which the crowd yelled. The other man who declared that prohibition had helped his business explained he sold furniture. The wets laughingly acknowledged that they were worsted in the argument."

What We May Expect
An interesting bit of testimony comes from the section of Minnesota which has recently become dry through what might be called an automatic application of prohibition to a region where no election was held to settle the question, namely, the enforcement of an old Indian treaty. Because of this action there is not now an open saloon in Itasca county, and as a result there has taken place a marvelous reformation of a commercial nature. It is reported that at the Great Northern railroad station at this point one year ago seventy-nine tons of beer were shipped in. This year for the same period there was no receipt of beer, but the books showed that seventy-nine tons more of groceries were consigned to this point than during the corresponding month of a year ago. The Minneapolis (Minn.) Journal, in reporting this delightful state of affairs, says that the records of the mining companies, which employ the large population of foreigners, show fewer layoffs among the men than ever before and the stores report larger and more profitable business from these employees.

Dry County Has Large Balance
The treasurer of Kalamazoo county, Mich., the county in which is situated the city of the same name, reports a balance of \$25,728 for the year ending Sept. 30, '15. This balance is significant when it is remembered that the county went dry on May 1 of this year and thereby forfeited \$20,000 in liquor license revenue. For the year ending Sept. 30, 1914, the balance amounted to only \$6,878.20, practically \$19,000 less than 1915, although the county treas-

urer received for 1914 the liquor license revenue which was forfeited the following year.

Low Tax Rate In Dry Butler
The jail in a dry town is very sure to be almost if not quite an empty building. Butler, Mo., is seriously considering doing away with this institution. Butler has prospered amazingly without the liquor license revenue—a fact exploited in a recent number of the Kansas City Star in the following terms:

"Butler today is a better, richer and more prosperous town than ever. The merchants carry better stocks, the business houses are neater, cleaner and better; the people live in better and more attractive homes and enjoy life in more rational and healthful ways. There are fewer idle people and merchants have fewer bad debts."

BIG DINNER-LITTLE PRICE

THAT IS exactly what we mean—a BIG Christmas Dinner at a LITTLE price. Certain Groceries are far richer in nutriment than other grades of the same article. Often there is no difference in the price with some dealers. It is up to him when he buys his stock. If he is a stickler and insists on nothing but the best he GETS the best and his customers get the same. Otherwise "something just as good" is substituted, but it is NEVER just as good. This store buys only the best, and at small prices.

FOR YOUR CHRISTMAS DINNER we have a great variety of everything the careful housewife could desire, down to the smallest article needed to make it a dinner LONG TO BE REMEMBERED. They were purchased for THIS SPECIAL PURPOSE, and every single article will MAKE GOOD to the limit.

A Few Things You Will Need

Poultry	Sweet Potatoes	Cucumbers
Cranberries	Celery	Tomatoes
Mince Meat	Radishes	Blue Points
Grapes	Lettuce	Pumpkin

EVENING CAP

The charming model of this evening cap is made in a mushroom shape with a narrow brim of satin and a small ruffle of malines over the brim. It is trimmed with large poppies with heavily beaded petals. A satin ribbon is tied under the chin to hold the hat on.

TWO GOOD CLEANING HINTS

Best Method of Removing Mildew From White Goods—For Paint Stains on Clothing.

For removing mildew from white material take one teaspoonful of chloride of lime, and one teaspoonful of washing soda. Put this and the mildewed article into two quarts of cold water and let it boil for about four hours; then skin off the scum, add two handfuls of cold water and let it stand over night, with the article well covered. If this is not long enough, put the article back again and soak it until the mildew entirely disappears; then rinse well and wash in the usual way. Be sure to take off the scum, for that is what burns the material in so many of the recipes given.

To remove paint from clothes, use equal parts of benzine and ammonia, rubbing with a cloth on the wrong way of the nap to get out all the paint. Then hang the garment on the clothesline to dry in the open air. When dry, if no trace of the paint is seen, brush the cloth in the proper direction. When using benzine keep away from fire.

Malleable Garland Range

DO NOT spend your Christmas money until you have seen these new ranges--the best ever offered for sale in this town. Make your wife a present of one a few days before Christmas and let her cook your turkey on it. In all this territory you could not find a more acceptable present for your wife or family.

Just think of the pleasure it would afford her to have a new and up-to-date Malleable Garland Range on which to cook your Christmas dinner. Come to think of it, why not get it now? Ask her how she would like to have one, and **WATCH HER FACE!**

T. C. WOOD HARDWARE CO.

Didn't Like the "New" Christmas. The story is told of Thackeray that he was invited to a party at a country house where the host determined to make the experience of keeping Christmas in "new style." Toward the conclusion of the feast, in which nothing common to a Christmas dinner figured, it was found that Thackeray had disappeared. He was discovered in a corner of the mansion regaling himself on beef and plum pudding, which he had bribed one of the servants to bring him from the kitchen table.

"Jul" Stamps For Christmas. For some years there has been a Christmas stamp issued by the Denmark government. The Denmark stamp is issued by the post office and with the king's head on it and the one word "Jul," which is Danish for Yule. It is issued each year at Christmas for the season, and every penny from its sale goes to help the fight against tuberculosis in Denmark. It costs a farthing and sells by the millions, having almost doubled its sale each year for the past few years.

Sideboard for sale cheap at the New North office.

Musical Christmas Tree Holder. For the Christmas tree a holder which will certainly delight the children was placed on the market several years ago. The holder consists of a nickel plated base, containing a music box. The tree is held firmly by three strong prongs and screws. When wound up the music begins to play, and the Christmas tree slowly revolves. This makes a fine effect. The holder is simply constructed, and the tree can be fastened in it in little time. No matter how large or how small the case of the tree, the prongs can be quickly adjusted to hold it firmly in place. It is very desirable to have the Christmas tree stand firm.

Ejaculation of a Vacationist. Oh Lord! I have left behind all the things I ought to have taken and I have taken all of the things I really didn't want, and there is not much health in me—Life.

Hard Luck, Indeed. "What is a fellow to do, I'd like to know?" complained John. "The kids that mamma don't object to me playing with all have mammas that won't let them play with me."

"My Christmas Decision"

From Battle Creek, Mich., a Christmas message was sent to the nation—a message that may mean Christmas cheer for the starving tenement dwellers, the street wulf, the jobless man, the social outcast, for everybody who is lonely, neglected or friendless.

With Rev. George E. Barnes as sponsor a movement was started to "make this Christmas Christmas for everybody."

The following, called "My Christmas Decision," was sent broadcast:

"Every Christmas season makes your friendship and mine more precious and our love more tender."

"This year the thought of that love has been bringing to me a new consciousness of the needs of the whole world of Christmas cheer and love."

"Desolate homes, stricken countries and imperiled lives abroad; slackened industry and impending suffering at home—all are calling. I want you to know that my Christmas gift to you will be quite simple, but warmed with the fire of a new love, for I am going to give an extra gift to the needs of all those whom I deeply love."

"My joy in this new service will be greater if you join me in its spirit, that our Christmas celebration may be kept simple, filled with good will, winged with sacrifice and devoted to peace."

No New Way of Keeping Christmas. I have among my friends some who have tried new ways of keeping Christmas, says an English writer. They have not been a success. When folk have done a thing in one way for some hundreds of years it is not easy to invent a better way of doing it. Of course it has been done sometimes. We have the steam engine, the electric telegraph, and so on, but with regard to keeping Christmas day no one seems likely to invent anything new that will be as good as the old. Roses and lilies will not do instead of holly and mistletoe, and there is no satisfactory substitute for beef, turkey, plum pudding and mince pie.

A Botanical Error

A Christmas Poem

By GOODLIE THOMAS.
(Copyright 1911 by American Press Association.)

PEGGY wore a sprig of mistletoe,
Wore it Christmas eve. Of
course you know
What the consequences were
Wearing that—and in her hair.

PEGGY'S not to blame for doing so.
How could she know it was
mistletoe—
Just a sprig of green she found
Lying carelessly around?

SOME said Peggy wasn't very slow
At a party wearing mistletoe
And a light in her blue eyes
Not exactly shocked surprise.

PEGGY'S not the least to blame,
although
Twas remarked, concerning mis-
telleo,
Her mistake seemed odd. You see,
Peg excels in botany!

Christmas Money.
The demand for Christmas money at the New York subtreasury grows each year. On a recent Christmas about \$250,000 a day in new coin, both gold and silver, was provided to meet the demand, which kept up until Christmas day. This Christmas money comes direct from the mint each year at this time. Thousands of residents of New York who never see the subtreasury at any other time pour down on the dingy old Wall street building and clamor for bright new gold and silver. The big department stores also demand new money, both to please their customers and to facilitate change.

Charming Christmas Eve Custom

A delightful custom in many homes is the reading aloud of Christmas literature on Christmas eve.

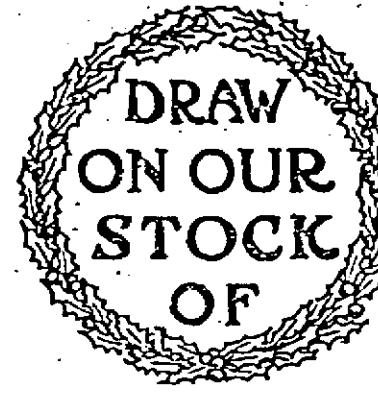

After the stockings are hung and the children are ready to be tucked snug in their beds the whole family gathers in front of the fire, while each one, large or small, contributes something toward the invocation of the Christmas spirit.

Among the choice selections that have been found especially appropriate for this hour, when hearts are tender and receptive, are Dickens' "Christmas Carol," bits from Herrick, Walter Scott and George Withers, Reginald Heber's "Star of the East," Luther's beautiful carol "All Praise to the Eternal Lord," Alfred Domest's Christmas hymn, Phillips Brooks' exquisite "Oh, Little Town of Bethlehem" or any of the Christmas gems written by Mrs. Sangster, Margaret Deland, Louisa M. Alcott and other American and English writers.

Last in the reading comes the simple Testament story of the Nativity, and just then as the children are ready to scamper off to bed the recitation in concert of that wonderful, ever new Christmas poem "Twas the Night Before Christmas," their exit being appropriately timed to its conclusion:

Merry Christmas to all,
And to all a good night!
